Terrariums are a beautiful vessel for growing a wide variety of plants indoors. If you are looking for a way to add a little extra something to a welcome table, wedding table, or event space our geometric terrariums have you covered. Let plants take center stage with one of our succulent terrariums, air plant terrariums, moss terrariums, or cactus terrariums.

Terrariums are our favorite way to bring a contemporary look into your home or event space. Hanging terrariums are a gorgeous décor piece to take your event to the next level. Create beauty and freshness by placing *cloches*, glass domes, apothecary jars, and other glass terrariums on mantels or tabletops.

Glass hurricanes, mason jars, and gorgeous vases with lids are other beautiful terrariums that will add that perfect touch to your home décor.

Take a creative approach and transform one of our terrarium containers into candle holders, seasonal décor, wedding centerpieces, display containers and more.

*Wholesale terrariums* are an ideal design solution for decorating large events or spaces for business events, weddings and more. With the terrarium collection always expanding, 46 & Spruce offers the trendiest items in tabletop design.
